

VINCENSIUS PRASETYO ADI

5+ YEARS COMBINED EXPERIENCE IN DATA, SUPPLY CHAIN, & DIGITAL TRANSFORMATION

0895359042001 | vincensiusprase@gmail.com

<https://www.linkedin.com/in/vincensiusprase/>

<https://sites.google.com/view/vincensiusprase>

Tangerang, Banten 15131

Skills

- **Data Analysis & Programming:** Python (Pandas, NumPy, SciPy, Matplotlib), SQL (Standard & Legacy).
- **Business Intelligence & Visualization:** Power BI (DAX, Power Query, Data Modeling), Looker Studio, Conversational Analytics
- **Spreadsheet Management:** Advanced Excel & Google Sheets (Query, Lambda, Map, ArrayFormula, X/V/H-LOOKUP, Pivot Tables, Nested IF, any IFS).
- **Google Workspace Administration:** User Management, Security Policies, Domain Management, Service Control.
- **AI & Automation Solutions:** Prompting, Google Apps Script, API Integration, Document AI.
- **Google Cloud Platform (GCP):** Cloud Storage, BigQuery, Cloud Run, Dataform, Data Flow, IAM, Cloud Billing, Knowledge Catalog, Cloud Scheduler, Monitoring
- **No-Code/Low-Code Analytics:** RapidMiner, KNIME.
- **Digital Transformation & Strategy:** Industry 4.0 Roadmapping, Pilot Project Execution, Technology Evaluation, Impact Assessment, Strategic Planning.

Work Experience

DATA ANALYST — PT Intan Safety Glass [Glass Processor Industry]

Jan 2024 - Now

- **End-to-End Data Pipeline Engineering:** Architected, built, and optimized automated ELT/ETL pipelines ingesting operational data from fragmented sources (including Google Sheets API) into BigQuery using Cloud Run containers, triggered via Cloud Scheduler.
- **Modern Data Modeling & Transformation:** Leveraged Dataform (SQLX) within Google BigQuery to design modular data layers, perform automated data quality assertions, and track end-to-end data lineage with version control.
- **Data Governance & Access Control:** Formulated and implemented enterprise-wide data standards, IAM access control policies, and procedures across corporate networks to maintain strict security and compliance.
- **Master Data Management (MDM) & Integration:** Spearheaded the centralization of core operational data assets, integrating 100+ fragmented departmental data sources into Google BigQuery to establish a single source of truth.
- **Data Infrastructure & Observability:** Administered scalable GCP infrastructure (BigQuery, GCS, Cloud Run), executing disaster recovery protocols and configuring Cloud Logging & automated alerts to maintain data integrity and 100% system reliability.
- **Automated Data Delivery & Reverse ETL:** Delivered clean, production-ready data marts to Looker Studio for executive KPI dashboards, while implementing reverse ETL workflows to feed processed data back into Google Sheets for operational reporting.
- **Automation, DevOps & Version Control:** Engineered custom Google Apps Script (GAS) enterprise solutions and implemented CI/CD practices via GitHub for Dataform and Cloud Run, minimizing human error and streamlining deployment workflows.
- **Data Quality Management & Cataloging:** Developed end-to-end business workflow documentation using Draw.io and established structured Data Cataloging practices that enhanced data visibility, quality control, and cross-departmental knowledge transfer.
- **BI, Analytics & Stakeholder Management:** Collaborated with cross-functional leaders to translate business requirements into interactive analytics, leveraging Conversational Analytics and dashboards to drive rapid ad-hoc analysis and strategic decision-making.
- **Digital Transformation & Strategic Leadership:** Led comprehensive digital adoption initiatives from strategic roadmap design to technological evaluation; successfully executed high-impact pilot projects and evaluated overall business ROI for executive stakeholders.

- **Strategic Planning:** Directed SCM strategic execution to align operational targets with corporate goals, ensuring 100% synchronization across the value chain.
- **Operational Excellence:** Maximized On-Time Delivery (OTD) through precision scheduling and material readiness, significantly boosting production efficiency and customer satisfaction.
- **Inventory Optimization:** Managed demand forecasting models to maintain optimal stock levels, prevent critical shortages, and reduce warehousing costs.
- **Digitalization & CI:** Led 3+ strategic optimization projects and established SOPs for process digitalization, effectively reducing non-conformity records.
- **Cross-Functional Leadership:** Integrated Production and Finance workflows using Google Looker Studio for real-time KPI tracking and data-driven decision support.

Projects

END TO END RECRUITMENT AUTOMATION USING AI AND GOOGLE WORKSPACE – INTAN’S PROJECT

- Automated the end-to-end hiring workflow using Document AI, DeepSeek, Cloud Run, and Google Workspace, achieving total monthly cost savings of **IDR 6.3 million**.

END TO END COMPANY DATA ARCHITECTURE – INTAN’S PROJECT

- Built end-to-end automated pipelines, data models, and CI/CD workflows from multiple sources to BigQuery and Looker Studio using Google Cloud Platform, Dataform, and GitHub.

AUTOMATION PRODUCTION SCHEDULING & DELIVERY PLANNING – INTAN’S PROJECT

- Automated the production scheduling workflow using Google Sheets, Apps Script, BigQuery, Dataform, Cloud Scheduler and Cloud Run, reducing administrative effort by 90% and improving work order status visibility.

DYNAMIC SAFETY STOCK, REORDER POINT, ABC ANALYSIS, CUSTOMER TIERING & RFM ANALYSIS – INTAN’S PROJECT

- Automated 18-month rolling calculations for safety stock, reorder point, ABC analysis, customer tiering, and RFM analysis using BigQuery, Cloud Run, Cloud Scheduler, and Google Sheets.

LEADS SCRAPING – INTAN’S PROJECT

- Built an automated lead scraper using Maps API, Apps Script, and Google Sheets to extract target glass shop leads.

WEB APP DEVELOPMENT – INTAN’S PROJECT

- Developed a custom web application using Google Apps Script and Gemini to streamline end-to-end inventory management operations.

Education

BACHELOR OF CHEMICAL ENGINEERING –

Universitas Pembangunan Nasional “Veteran” Yogyakarta – Sleman, D.I.Yogyakarta

June 2020

Certification

- **Associate Data Scientist** by BNSP, 2025
- **Data Analyst** by BNSP, 2025
- **KNIME L1** by KNIME, 2025

Language

- English, Intermediate, B1 Level by EFSET, 2025
- Bahasa, Native
- Javanese, Native
